The Wild Azalea Trail is a 31-mile long recreation trail that follows the route of a paved residential road from Woodworth (at the Town Hall) to Valentine Lake. It begins at FSR 279 and runs east to the Kisatchie National Forest Supervisor office. This segment is about 5.6 miles long. One mile from the Valentine Lake Trailhead you cross FSR 208 and pass near the Gardner Fire Tower which was constructed during World War II for observation and protection of the area. The trail then continues for about 1.4 miles past a split in the road to the Kisatchie National Forest Supervisor office, which is available for judicious public use.

The Wild Azalea Trail is a National Recreation Trail supported by the Louisiana Natural Area Program. This makes it possible to hike short sections, a convenience for those who haven't hiked by road at several other points. This makes it possible to hike short sections, a convenience for those who haven't hiked by road at several other points.
